Friday, 6 September 2019, Week 7 Term 3

Principal's Message

As I am sure you are aware, we have changed the way that students have been leaving the school grounds in the afternoon. This change came about because we wanted to ensure that our students arrive home safely. All staff are supporting students as they leave the school. Students have responded very well to this change and I would like to thank our wonderful community for working with us to ensure our students are safe.

What an amazing turn out for the P&C Father's Day breakfast. This is a wonderful initiative and something that the P&C and the wider school community can be very proud of. It was also great to see our new canteen in operation. On a side note, I am working with the P&C to see how best we can have our canteen operating in the future.

We have been building up a large pile of lost property over the last few weeks. If your child is missing something, please remind them that the lost property is located in the office and that they should come and have a look for it.

We will be starting our 2020 Kindergarten transition program next term. If you have a child that is starting school in 2020 or know of any future students could you please ask them to come into the office as soon as possible to get an enrolment package.

Mr Danny Scott
Principal

What are Golden Tickets?

At Queanbeyan East, we have two different types of tickets that students can earn. One is the TRRRIFIC tickets, which earn students blue awards at assembly and the other one is the Golden Ticket. Golden Tickets can be given out by any teacher to any student for displaying the school values of Respect, Responsibility and Resilience. On Mondays after lunch all the Golden Tickets are collected into a draw and generally 5 are pulled out for a reward! Students have a choice of their prize from stationary to play dough! These are great instant wins for students and they are aimed to motivate them to show the school values at all times, you never know who will catch you doing good!

Boys PSSA Touch

Our boys have done it again. This time beating Goulburn East Public School 3-0. Man of the Match was Josh Ecleo.

This truly is a great achievement for our team. Our next game will be played in the coming weeks. The entire team and Mr Smith should be very proud of their achievements to date.

Is your child missing a jumper? We have lots of lost property in the office. Parents and students are welcome to come and have a look.

Bats

Friday 11/2/2019

Did you know bats are mammals have warm blood also they drink blood bats could live over 20 years they fly at night and use echolocation to find food travel safely bats almost live everywhere most bats ^{eat} insect bats send out sounds that bounce off object and travel where the bats home

Diet

They mainly get blood from cows, sheep, and horses to get blood vampire bats make a small cut with clove 1000 different types of bats most bats eat insects bat eat grasshoppers, insects, ants, flies, bugs. also vampire bats drink blood mega bats eat fruit that's why they called fruit bats they eat fruit there many bats live in different places

Habitat

Many bats live in dark, underground cave. it's really easy to sleep during the day. Nearly 200 million bats live in broken caves in Texas but just do it live in caves, they also live found in old trees.

Isabella

behaviour

Bats are out and about from dusk to dawn to food sources such as mosquitoes, June beetles, spiders, grass hoppers, beetles, some suck blood from humans, sheep, cows, horses.

what do they look like

Bats have wings shaped like fingers but bats have a silk wings they also have ears, whiskers, tails, thumbs and elbows.

conclusion

I think that bats are amazing because you can learn everything about them and if you want to know you can search on the internet and if you want to see one in real life check in your garage at night time you might find one.

(3)

Isabella

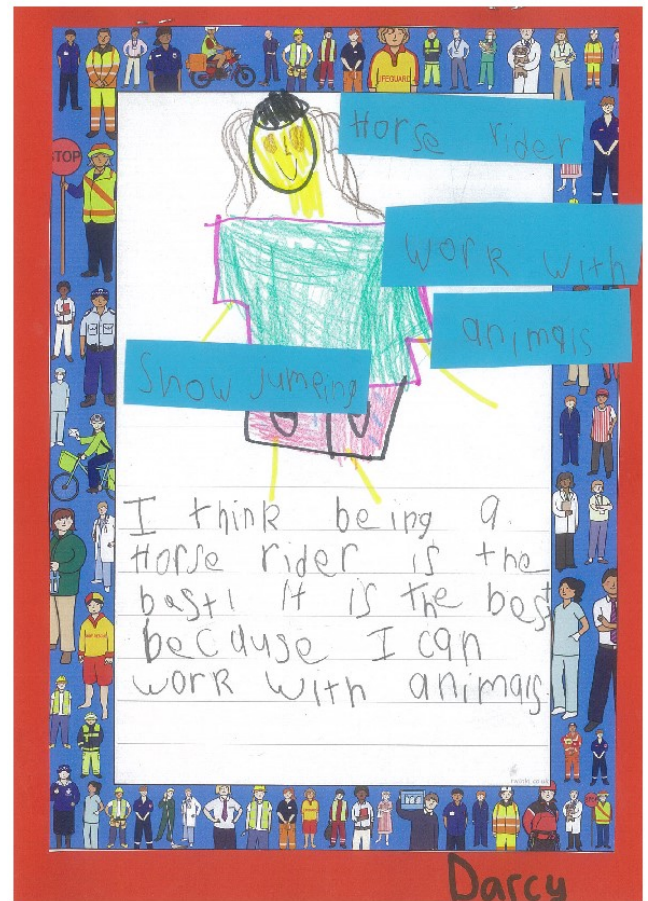

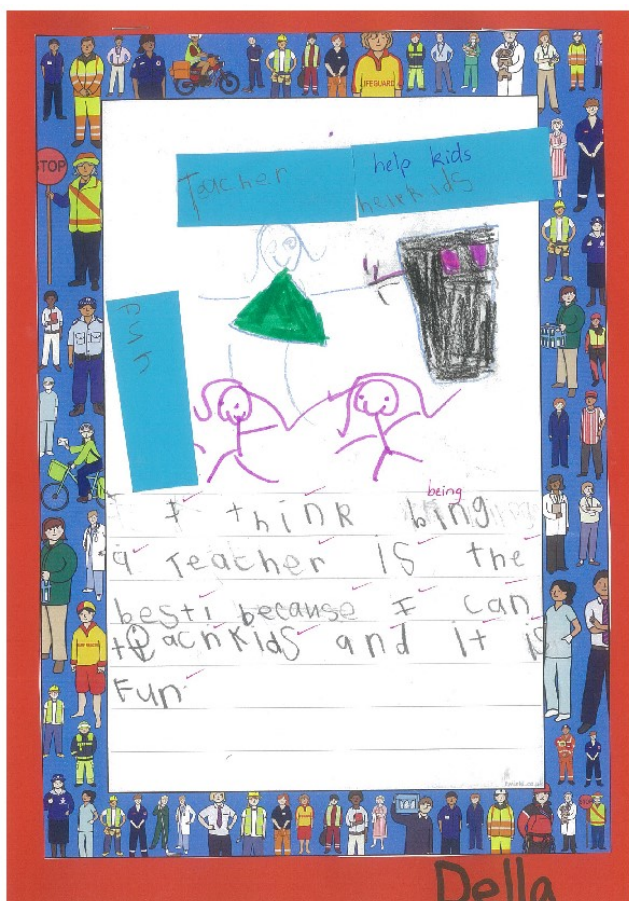

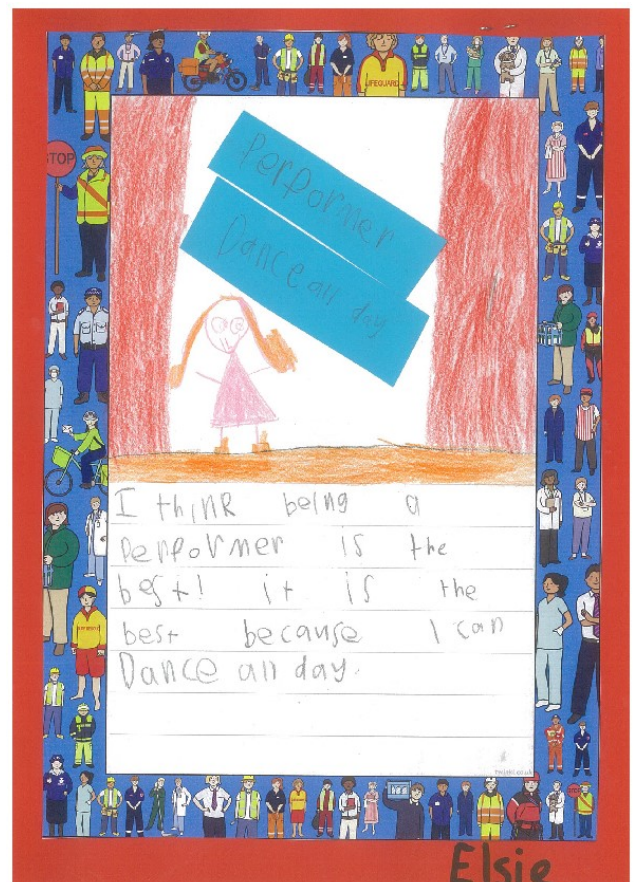

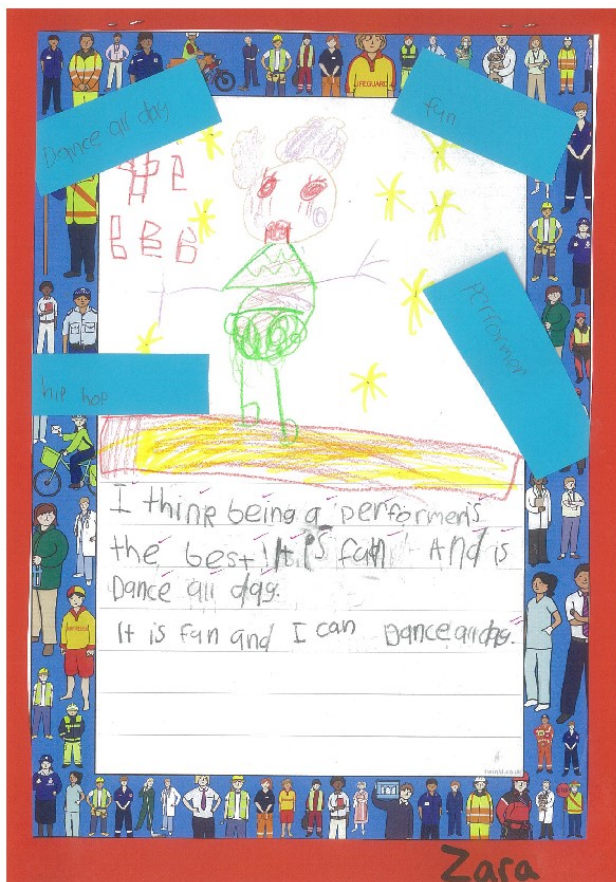

conclusion

Bats are important because they are amazing animals that can fly and they can eat fruit some people didn't know that but now you found out.

conclusion

I think that bats should stay alive because they are amazing and for the people that want to hunt them please don't.

Possum Magic Excursion

Recently our Year 1 and 2 students travelled to the Canberra Theatre to see the performance Possum Magic. The students (and staff) really enjoyed the event and came back to school still laughing and talking about the experience.

P&C News

The P&C had a great opportunity last meeting to meet our new principal and have a tour of the new school building.

P&C will be working with the principal and the SRC to bring parts of the school back to life once the build is complete and demountable removed.

Our subcommittees for communications, canteen, fundraising, uniform, sustainability and safety, always need fresh ideas and are looking for new members. No need to commit a lot of time, and the more help we have the more we can get done for our school!

Thank you Katie Wightman and her team of volunteers for coordinating our wonderful Father's Day breakfast on Friday 30 August, such a great morning as always.

Come along to our next P&C meeting Tuesday 10 September (Week 8) and find out how you can contribute to growing our school community to support our students and teachers.

Please contact us through our Facebook page or find one of the P&C members.
