Return to School Roadmap

Dear Parents,

Yesterday, the Premier announced a revised return to school roadmap. Attached to this letter is a comprehensive overview explaining, in detail, the process for students returning to school over the coming weeks.

As per the Premier's announcement, students across the Queanbeyan-Palerang Region will return to face-to-face learning, with NSW Health-approved COVID-safe Level 3 plus settings on school sites, in the following order:

Monday 18 October 2021: Kindergarten and Year 1

Monday 25 October 2021: All other years

For those families who have siblings across year groups, I know it will be difficult to keep some at home while others are back on site. However, we need this time to prepare our school and operations for having all students back, it's essential that you only send your children to school in line with the set plan.

The return to school roadmap is subject to change depending on new information expected through the Public Health Order and additional advice from NSW Health. You can stay up to date with the most recent advice on our [Advice for families page](#).

More information, relating to specific details of the return to school plan will be sent home next week, including details on student pick-up and drop off processes.

Thank you

Danny Scott
Principal

Roadmap for parents and carers Return to school for Level 3 plus

Information current as at 7 October 2021.

Developed in partnership with NSW Health

education.nsw.gov.au/covid-19/advice-for-families

In Term 4, schools will return to face-to-face learning either through a ‘staged return’ or ‘full return’.

The best learning environment for students is in the classroom and we are looking forward to welcoming back our staff and students in Term 4. We know that while there will be excitement, there will also be some anxiety and uncertainty about being back together at school.

Recent evidence shows that very little COVID transmission happens between children in school settings, and only a very small number of children who contract COVID-19 get seriously ill. However, to support school safety we are requiring all staff on site to be fully vaccinated, and we are strongly encouraging our students and school community to do the same.

We have worked with NSW Health on our COVID-safe plan to return to school sites and have developed effective practices to support this, including staff vaccinations, mask wearing, reduced mingling of staff and student groups, ventilation in classrooms and continued good hygiene and cleaning. We are confident that this, in combination with support from our school community, will minimise risk and help to keep schools open and students learning face-to-face next to their peers.

How the staged return to school will work

Students will return to face-to-face learning at school in the following order:

- from 18 October – department preschool, Kindergarten, Year 1
- from 25 October – all remaining year groups.

To maximise the re-establishment of a consistent routine, students who attend schools for Specific Purposes (SSPs) are recommended to return at the same time as students in mainstream settings. Students with disabilities in mainstream classes or support classes can also return as part of the staggered return at the same time as their year groups.

Students completing their HSC can already return in a limited way and this will continue for the first two weeks of Term 4. From 18 October, these students will have full-time access to school campuses and their teachers.

Some schools may have slightly different return to school plans, particularly if they have stage based classes or are very small schools.

School attendance

All students should be at school on the date indicated for their year group, unless:

- they have a medical certificate which says they can't return to school due to a condition or illness
- they are currently unwell
- they have been asked by NSW Health to self-isolate.

Wellbeing

If you are worried that the impacts of COVID-19 or going back to face-to-face learning may be affecting your child's wellbeing, please discuss this with your child's teacher.

You can find more information to help your child's wellbeing through the mental health and wellbeing resources on the department's website.

Break times, drop-offs and pick-ups and canteens

To make sure students reduce the risk of transmission across cohorts, schools will put in place staggered recess and lunch breaks, start and finish times and drop-off and pick-up points.

Students can use the canteen during breaks. This will be different at each school depending on the size of the school, the number of students, traffic flow and other factors.

Creating a safe learning environment

Masks and face coverings

Masks will be mandatory for all staff and all students in Year 7 and above while they are indoors and outdoors on school sites unless eating or exercising. Masks are strongly recommended for primary students both indoors and outdoors unless eating or exercising.

Students should bring their own masks where possible, but schools will have back-up supplies just in case.

Masks are mandatory for all travel on public transport for children 13 years and older.

Physical distancing

All adults must keep 1.5 metres distance from each other, including teachers and support staff, and parents and carers waiting to collect children.

Physical distancing between children in the same class is not required under the latest health guidelines. Mixing between class groups will be minimised and students will be supported to follow strict hygiene practices like:

- regularly washing hands
- not sharing drinks or food
- coughing or sneezing into their elbow, or else using a tissue which should be put in the bin straight away
- filling water bottles from bubblers rather than using the bubbler directly.

Vaccination

All adults at school sites, including employees, contractors, volunteers and essential visitors, must be fully vaccinated against COVID-19 by 8 November 2021. Adults that are required to support the staged return to school in October 2021 will be required to have received two doses of COVID-19 vaccine by that date. For schools under Level 3 settings, adults are strongly encouraged to have had two doses of a COVID-19 vaccine, but are not required to be fully vaccinated until 8 November.

Students aged 12 or above are now eligible for a COVID-19 vaccination. Parents and carers can book in a Pfizer or Moderna vaccine now.

Vaccination appointments are available at more than 3,000 locations across NSW, including GPs and pharmacies. For students and families who have questions or concerns related to getting vaccinated, refer to [NSW Health's Know the facts COVID-19 vaccination fact sheet](#).

School cleaning and hygiene supplies

Schools will continue to receive additional cleaning in line with advice from NSW Health.

Schools have received extra supplies of soap, hand sanitiser, toilet paper, paper towels, disinfectant wipes and personal protective equipment and can order more as needed.

School activities

Many school-based activities will remain on hold, including large celebrations such as presentation days and graduations, arts and sports events. For a full list of what is permitted and what is on hold, refer to education.nsw.gov.au/covid-19/advice-for-families.

Visitors

Only essential visitors are allowed on school sites at this time. When dropping off or picking up your child, parents and carers need to stay outside school grounds, you will need to wear a mask and physically distance. Some exceptions may exist for:

- schools for specific purposes
- vulnerable students
- students with disability
- preschools.

In these instances, follow the vaccination and mask-wearing requirements and sign in using the Service NSW QR code when entering the school.

Reporting and assessment

You will receive your child's Semester 2 report by the end of the year. This will be a simplified version of the report you normally receive.

Ventilation

Open or well-ventilated spaces reduce the risk of COVID-19. Where possible classroom doors and windows will remain open and fans and air-conditioners will be set to use outside air, where possible.

Rapid antigen testing

We are exploring with NSW Health the use of COVID home testing kits (known as rapid antigen testing) as a further screening measure to reduce the risk of outbreaks in schools, or the length of time students need to isolate after contact with someone with COVID. Further details will be provided in Term 4.

Orientation and transition to school

We have flexible arrangements so that students and parents and carers can still get help with orientation and transition to school in a COVID-safe way. Kindergarten and Year 7 orientation programs will be possible for schools that are no longer under stay-at-home rules. Transition and orientation programs will be virtual for schools still under stay-at-home rules.

Responding to COVID-19 cases

Where there is a case of COVID-19 in the school community, the department has established systems and protocols with NSW Health to manage and respond accordingly to keep our staff and students safe. These protocols include communication with parents or carers if their child has been in contact with someone who has tested positive to COVID-19 while at school or if the school becomes closed.

If your school reverts to learning from home

If schools revert to learning from home due to a Public Health Order or direction from NSW Health or the Department, the school will continue to provide learning activities for your child to do at home and will communicate with you about their learning.

If your child's school needs to revert to remote learning, your school will let families know through the usual channels, which might include email, social media or the school website.

If your school becomes closed due to a COVID-19 case

Parents and students will be notified when a decision is made to make the school closed for onsite attendance due to a confirmed case of COVID-19 or other events that require the school to close. Information about the operational status of the school will be distributed through the school's information channels, including the school website, Schools Safety App, any school social media channels and the department's website. During this period, the school will continue to provide learning activities for your child to do at home and will communicate with you about their learning. Parents and students will be informed by the department when the school is ready to resume onsite learning.

Get in touch with questions or concerns

Your principal has already started planning for a COVID-safe return at your school, taking into account the unique needs of their students and school. To support this planning, and to allow for your teachers to be fully vaccinated by 8 November or earlier, it is important that students return on the date specified for their year group.

Get in contact with your principal directly if you would like more information about your school's COVID-safe return to school plan or if you have concerns or questions about your child being back in their classroom for face-to-face learning in Term 4.

If you need further information, please call your school. If you need an interpreter to assist you with your enquiry, please call the Telephone Interpreter Service on 131 450 and ask for an interpreter in your language. You will not be charged for this service.

Say hello
